

BUILD ON YOUR LAND

1

Consultation

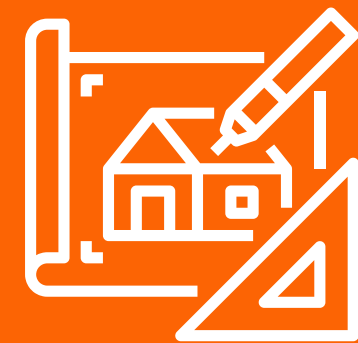

We understand the importance of designing a floor plan and choosing finishes that fit your needs and style! During a consultation, we will first listen and then provide you with ideas to ensure an enjoyable building experience!

2

Design

Turn your dream home into a reality! Our Builder, Home Designers, and Real Estate Brokers work closely with each client to make sure we're meeting, and exceeding expectations.

3

Review

Building a home is one of the biggest projects and purchases of our lives. We want to make sure our customers are satisfied. We will go over your plan, budget, and designs face to face.

5

Construction

Our building process moves along quickly and smoothly. From scheduling to building, you can expect a hands on experience with professional tradesman and exceptional workmanship.

4

Engineering & Permits

Once you have approved the final design the plans are submitted to the local municipality for approval. Construction begins immediately upon approval. We do the work and you reap the rewards.

FYI...

If you have yet to purchase or find suitable land, but would like to build custom, we can help!
